

LBS Service & Product Catalog

Introduction

LBS Group was established in Hong Kong in 1998, introducing professional restroom hygiene management concepts and technology to enhance the customer's hygiene standard. As of today, the Group's business has been expanded to more than 20 cities across the Cross-strait four regions and Southeast Asia. Listening, observing and analyzing our customers' needs, introducing the "Total Hygiene Solution" with innovative and diversified products and services to satisfy our different customers' needs.

We provide our products and services via the brands:

- LBS Hygiene - Being your Hygiene Expert, we provide a total hygiene solution including Restroom Hygiene, Commercial & Household Pest Control, Desludging services, also have Paper & Trash Bag, Chemical Products and different kinds of Hand Cleansing & Sanitary Products

- LBS Air Purification Services - Efficiently decompose air pollutants include formaldehyde, volatile organic compounds, odor, bacteria, viruses, mold, fumes and smoke, converting to harmless molecules such as carbon dioxide and water by PhotoPlasma™, maintain a clean environment for better health

- LBS Refreshment Services - Our water dispensers are equipped with Carbon Multi-Filtration Technology, Firewall™ UV Purification and BioCote® Anti-Microbial Protection. Our products are awarded with ISO9001, WRAS, NSF/ANSI 53, 55A&B and P231 international standards

- Puriscent - Unique scenting system to imprint unique brand impression the moment your customers set foot on your premises, enhancing brand association and uplifting brand image

- LBS Commercial Kitchen Cleaning - Professional cleaning of the entire cooker hood system, filters and visible walls between cooker hood and stove. We use safe and environmentally friendly products to give our customers a complete peace of mind. Our procedure and technology are complied with ISO9001:2008 international standard

- BioCycle (Hong Kong) Limited - The first pest control company in Hong Kong to be certified by both ISO14001 and ISO9001 and is the Top Authorized Operator of the Sentricon® Colony Elimination System for termite management in Hong Kong; exclusively use of BioKill® ecological biocides in pest control service, providing safe, ecological, professional and personalized pest management to quality oriented clients

- BioKill - Swiss formulated products, effectively prevent pest and are safe to human and all warm-blooded animals. Approved by AFCD for the exemption of "Poison" Label, biodegradable and environmental friendly

- BioCycle Air Conditioner Energizing Service - Uses HydroKleen Australia Technology & Equipment that specializes in energizing and sanitizing air conditioner units. It is approved by the National Asthma Council of Australia. After energizing, your air conditioner is virtually free from microbial contamination leaving your air fresh and healthy. In addition, it reduces pest breeding conditions

- HKWS - Being the key player in water filtration products market, HKWS possesses the exclusive distribution rights in Hong Kong, Macau and China for well-recognized water filtration products specialists around the globe in Greater China region. Apart from our retail and wholesale services, we have demonstrated professionalism in water quality maintenance service over the years with our patented operations in water pipelines cleaning for households, private sectors and government departments in Hong Kong

- Renaud Air - Helping people live free from the dangers of indoor pollutants, contaminants and allergens by providing the most cutting-edge technology brands on the market and backing it with limited lifetime warranties and the best customer service in the industry

A natural gas explosion was
happened in Sichuan household in
Dec 2014 ...

Gas company found that there is a
hole on gas flexible pipe
which may be the main reason of gas
explosion ...

Why there is a hole?
It is because of rodent ...

Pest Control

- ◆ For Catering & Commercial, we offer weekly versus monthly protection at the same cost, using environmentally natural baits and traps only
- ◆ For Household, we serve over thousands of customers every year, and provide excellent household pest control services
- ◆ Both customers can enjoy our excellent service quality by advanced technologies & equipment, experienced & sizeable service team and thorough after-sales service

- ◆ Our service covers 8 different kinds of pest:

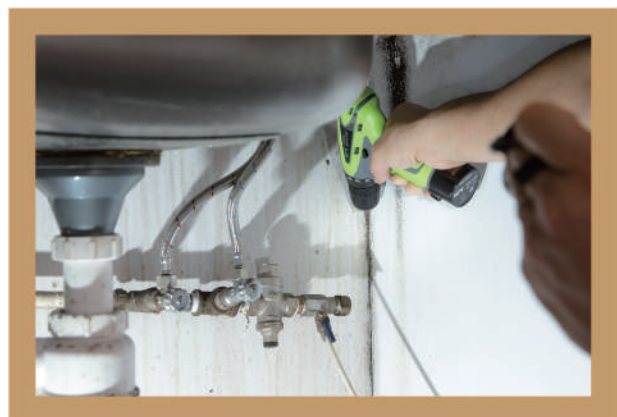

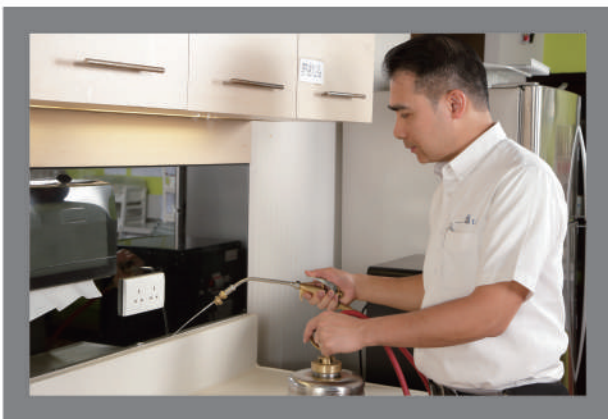

Termites

- ◆ Termite is one of the most intelligent and dangerous insects
- ◆ Having straight antennae and two pairs of wings (front and back) that are of almost equal length. The abdomen of the termite is straight and broadly joined to the thorax
- ◆ They like to live in warm regions of the world and love wood

◆ Our Treatment:

- 👍 To encounter termites infestation, we will first send professionals in the field to assess the scene, and find out the problem location and circumstances
- 👍 To arrange professional pest control technicians with testing equipment, and further confirm the scope of termite activity
- 👍 To spray baits to the affected wooden materials, such as wood floor, skirting etc. In order to let baits penetrate effectively, we will drill on wood appropriately. Residual effect for up to 3 years
- 👍 1 time to kill termites effectively. The scope of services will also have 1 year warranty

* Treatment may change depending on real situation

Bed-Bugs

- ◆ Bed-Bugs are nocturnal insects and generally feed at night, and hide in shelter areas in the day-time
- ◆ They will get into your home, by sticking onto your clothes, luggage and used furniture, then taking a chance to climb out once you arrive home
- ◆ They could usually be found somewhere near the bed, mattress, bed frame, spots underneath the carpet and wall paper, cracks and crevices
- ◆ Our Treatment:
 - 👍 To encounter bed bugs infestation, we will first send professionals in the field to assess the scene, and find out the problem location and circumstances
 - 👍 4 times to kill bed bugs, each separated by 1 week approximately
 - 👍 In the 1st time, our professional pest control technicians will use thermal steam cleaner with a temperature reaching 104° C to kill bed bug eggs, larvae and adults, and also spray baits to ensure the effectiveness
 - 👍 In the 2nd to 4th time, we will use powders and baits to kill the rest of the bed bugs by dehydration

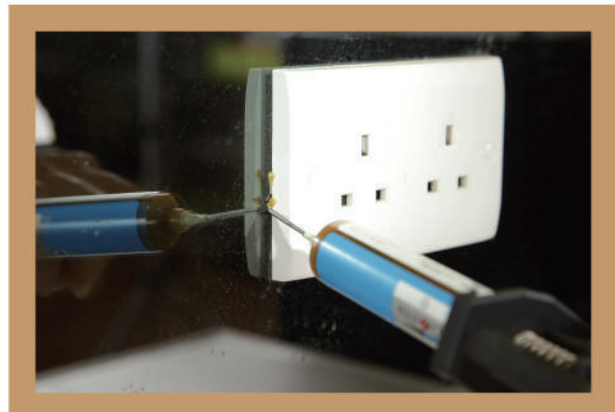

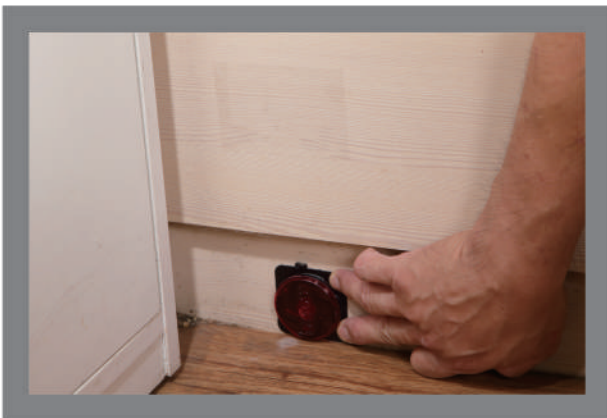

* Treatment may change depending on real situation

Roaches

- ◆ The main diseases spread by cockroaches include food poisoning and gastro-enteritis
- ◆ Two common cockroaches are German cockroach (*Blattella germanica*) and American cockroach (*Periplaneta americana*)
- ◆ German cockroach which is a smaller size and light brown color. American cockroach which is relatively large size and dark brown color

◆ Our Treatment:

- 👎 Our professional pest control technicians will check the locations carefully such as kitchen, kitchen cabinet, sink and floor drain etc
- 👎 To use gel to cheat cockroaches to eat or carry back to the nest, then they will be killed by chain effect
- 👎 To kill cockroaches effectively and efficiently. We will provide 4 times services per month for Catering & Commercial customers

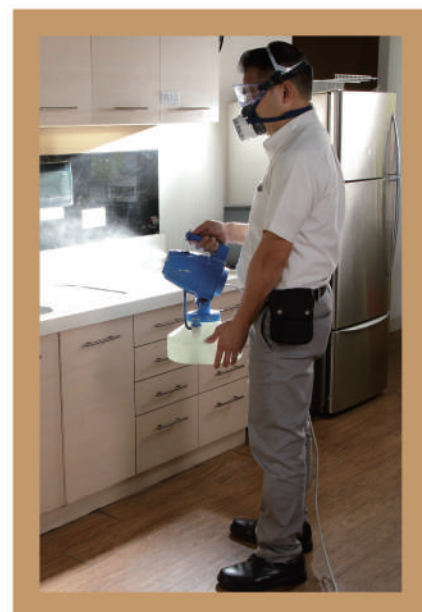

* Treatment may change depending on real situation

Fleas

- ◆ Fleas are small parasites that live on mammals and birds
- ◆ Fleas feed on a wide variety of warm-blooded vertebrates including dogs, cats, humans, chickens, rabbits etc
- ◆ Fleas are nuisance to their hosts, causing an itching sensation which in turn may result in the host attempting to remove the pest by biting, pecking, scratching etc

◆ Our Treatment:

- 👍 For Household, our professional pest control technicians will use fogging to kill fleas
- 👍 For Catering & Commercial, our professional pest control technicians will spray baits to the affected areas such as carpet, warehouse etc, killing flea eggs, larvae and adults
- 👍 1 time to kill fleas effectively

* Treatment may change depending on real situation

Ants

- ◆ Ants are sensitive to the temperature, they are active under hot weather
- ◆ They love sweet food such as cake, honey and maltose etc
- ◆ They can identify the road but intolerant of hunger. If there is absence of food & water, they will die around 4 days

◆ Our Treatment:

- 👍 Our professional pest control technicians will check the locations carefully such as pantry, sweet food storage etc
- 👍 To use gel to cheat ants to eat or carry back to the nest, then they will be killed by chain effect
- 👍 To spray baits to kill ants if large affected areas
- 👍 To kill ants effectively and efficiently. We will provide 4 times services per month for Catering & Commercial customers

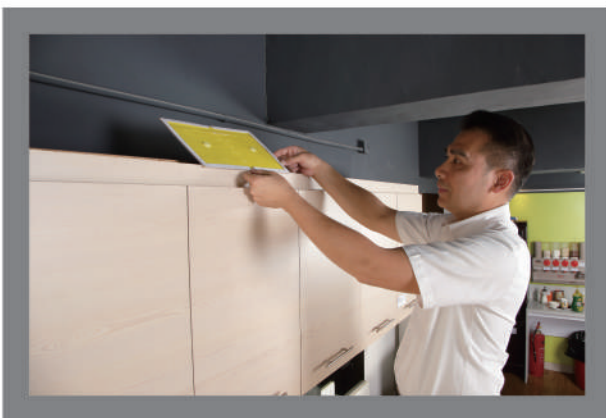

* Treatment may change depending on real situation

Rodents

- ◆ Rodents are nocturnal and omnivorous animals
- ◆ They are good climber, jumper and swimmer
- ◆ Common rodent-borne diseases are Plague, Urban typhus and Spotted fever etc

◆ Our Treatment:

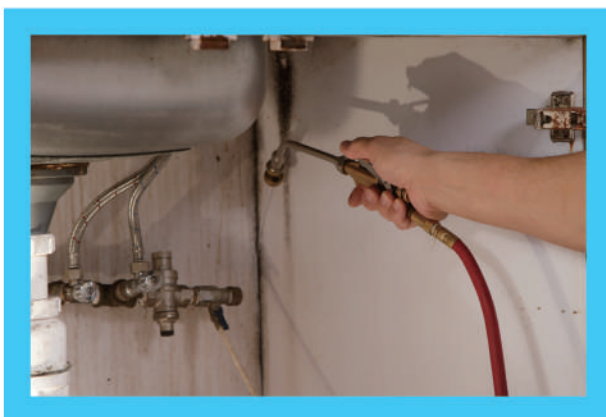

- 👍 Our professional pest control technicians will check the locations carefully such as back door, patio, ceiling etc
- 👍 To set rodent glue traps and baits placement, and use wire meshes to seal up the broken boards
- 👍 For Household, we will check and change the baits & glue traps in every week which last for 2-3 months
- 👍 For Catering & Commercial, we will provide 4 times services per month, check and change the baits & glue traps locations regularly

* Treatment may change depending on real situation

Silver Fish

- ◆ Silver Fish are nocturnal insects
- ◆ They consume matter that contains polysaccharides such as glue, book bindings, paper, photos, sugar, coffee and hair etc
- ◆ They could usually be found somewhere bottom of refrigerator, bathroom with heating and cracks in floor tiles etc
- ◆ Our Treatment:
 - 👍 Our professional pest control technicians will check and spray baits to the humid locations such as bottom of refrigerator, and cracks
 - 👍 1 time to kill silver fish effectively

* Treatment may change depending on real situation

Fruit Flies & Mosquitoes

- ◆ Fruit Flies typically prefer fruits and veggies, they often can be found in other rotting material, including meats and even the scum that forms in drains
- ◆ Fruit Flies get into buildings simply by finding small cracks and holes to slip through
- ◆ Common mosquito-borne diseases include Malaria, Dengue fever, Japanese encephalitis and Yellow fever
- ◆ Our Treatment:
 - 👍 Our professional pest control technicians will spray baits to the sources, such as stagnant water and sewage
 - 👍 To place bait station with a mixture of alcohol & baits in different locations. They will be attracted and captured automatically without affecting business hours
 - 👍 4 times services per month for Catering & Commercial customers

* Treatment may change depending on real situation

Total Image System

- ◆ Total Image System is an advanced deep-penetrating injection system, which can clean up the places that are covert or cannot be cleaned by cleaning workers, then your restroom will be renewed

Deep-penetrating injection can clean the place, including:

- 👍 Floors
- 👍 Ceilings
- 👍 Walls
- 👍 Vents
- 👍 Furnishings
- 👍 Cubicle Partitions etc

- ◆ Deep-penetrating injection system is a multi-purpose use machine:

- 👎 All dust will be blown by a strong wind
- 👎 Using high-pressure water jet function to inject the solution to stubborn dirt (including stains between each tile)
- 👎 All sewage and dirt will be removed by strong absorption function

* Treatment may change depending on real situation

In Ancient, people used water,
cloth, leaves, corn cobs, bamboo
for cleaning after toilet ...

In Tang dynasty, kings and nobles
started to use Xuan paper or silk
as toilet paper ...

Because of poverty during early
Republic, people used tile or corn
stalk for cleaning. They go back to
using toilet paper when
economic recovery ...

Small Roll Paper

Weight:

Around 110 - 130 g per roll
(Depends on models)

Others:

- Green paper and Wood pulp paper for selection
- 2 - 3 ply
(Depends on models)
- Use with Small Roll Dispenser

Jumbo Roll Paper

Weight:

Around 650 - 850 g per roll
(Depends on models)

Others:

- Green paper and Wood pulp paper for selection
- 1 - 3 ply
(Depends on models)
- Use with Jumbo Roll Dispenser

M-Fold Hand Towel

Weight:

500 g per pack

Others:

- Green paper and Wood pulp paper for selection
- 1 - 2 ply
(Depends on models)
- Use with M-Fold Dispenser

Napkins

Quantity:

250 pcs per pack

Others:

- Wood pulp paper
- 2 ply

Praise

Tissue

Facial Box Tissue

Dimension:

20.0 (W) x 19.5 (H) cm

Quantity:

100 pcs per pack

Others:

- Wood pulp paper
- 2 ply

Interfold Facial Tissue

Quantity:

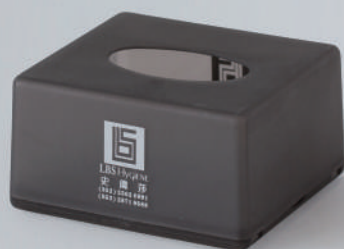

120 pcs per pack

Others:

- Wood pulp paper
- 2 ply
- Can use with Tissue Box

Remarks: Tissue Box in the picture is not included

Tissue Box

Dimension:

11.5 (W) x 6.2 (H) x 10.3 (D) cm

Weight:

66 g

Others:

Purple and Black for selection

Toilet Seat Cover

Dimension:

43.0 (W) x 36.0 (H) cm

Quantity:

250 pcs per pack

Centrepull Hand Towel

Weight:

Around 1,350 - 1,600 g per roll (Depends on models)

Others:

- Green paper and Wood pulp paper for selection
- 1 -2 ply (Depends on models)

Sensor Hand Towel

Weight:

Around 1,200 - 1,600 g per roll (Depends on models)

Others:

- Green paper and Wood pulp paper for selection
- 1 ply

More than 6 million tonnes of
municipal solid waste are generated
each year in HK ...

To reduce and recycle waste,
Government introduced 3-coloured
waste separation bins “blue for
paper, yellow for aluminum cans &
brown for plastic bottles” ...

Government recently proposed “waste
charging” & “landfill & incinerator
project” to solve waste problem ...

Praise

In 2004, Mr. Shao spent 20,000RMB to buy wood furnitures in Shandong ...

In 2005, all his family members were diagnosed with chronic formaldehyde poisoning. Mr. Shao was suffered from chronic gastritis, hypertension, coronary heart disease ...

The court fined the furniture company has more than 800,000RMB compensation to Mr. Shao!

Source: Rednet

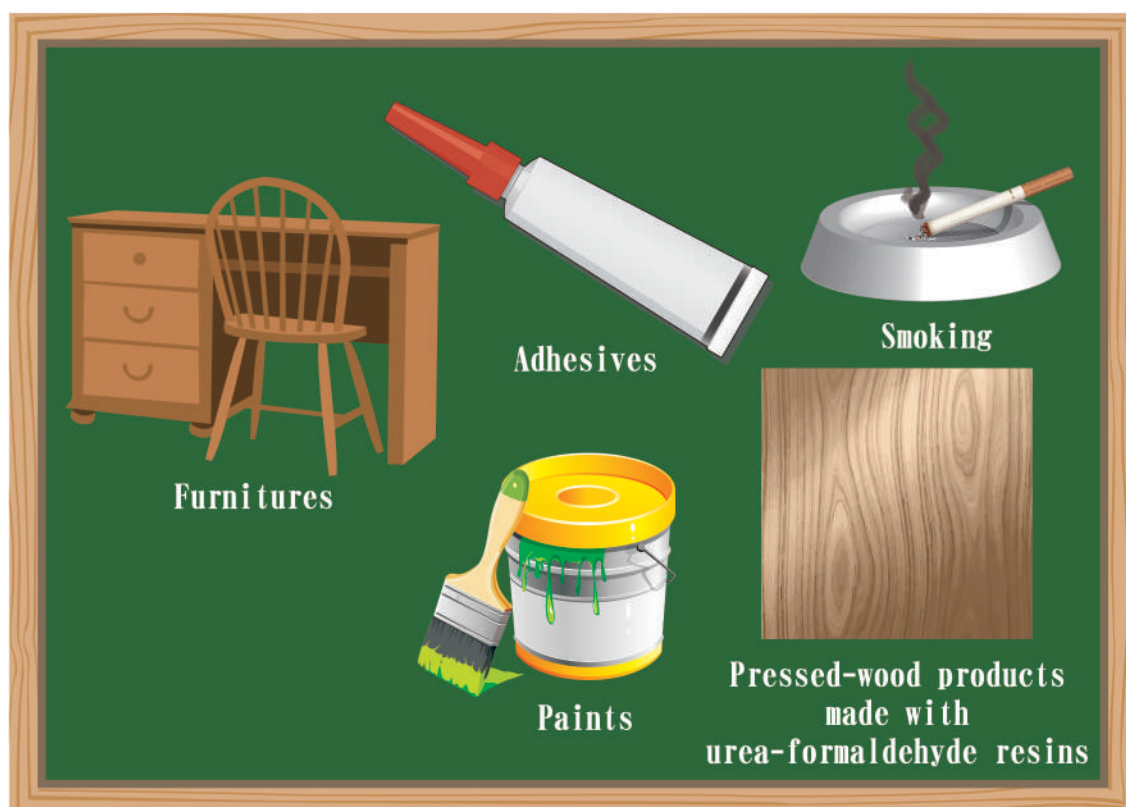

VOC & Formaldehyde

- ◆ Volatile organic compounds (VOC) include a variety of gases which are harmful to human health. One of the gases - Formaldehyde, release period up to 3-15 years:

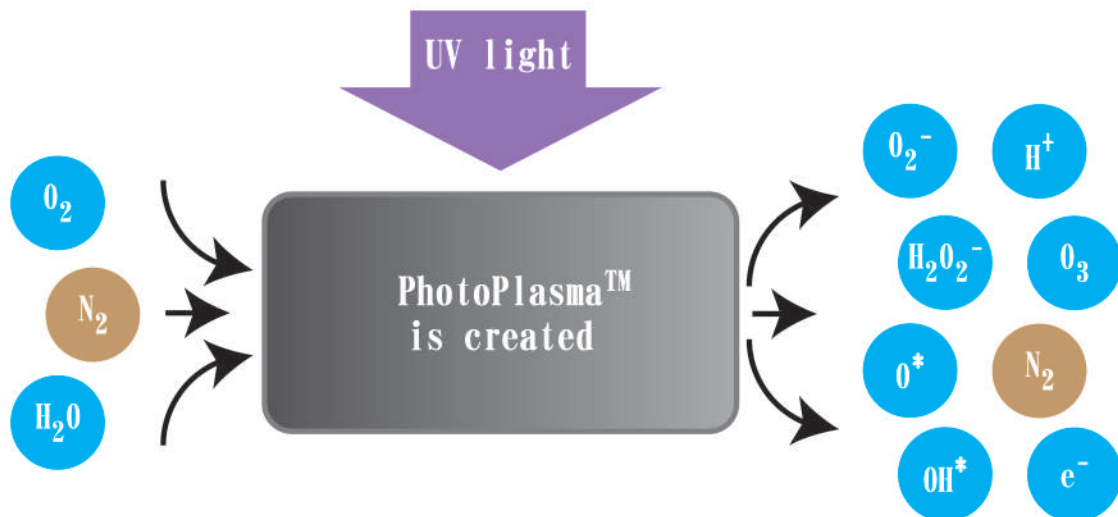

VOC	Health Harzad
Formaldehyde	Cause cancer, severe irritation of the respiratory tract and inflammation
Acetaldehyde	Strongly irritating to the skin
Benzene	Paralytic effect on the central nervous system, causing acute poisoning
Toluene	Central nervous system depression
Xylene	Reduce the coordination of organ function
Ethyl benzene	Irritating to eyes, skin and respiratory tract
Styrene	Cause cancer and mutations

- ◆ Main sources of indoor volatile organic compounds include:

Our Technology

- ◆ Our PhotoPlasma™ technology capture the air pollutant, then decompose to harmless elements rapidly such as CO₂ and H₂O etc

- 👍 Eliminate indoor formaldehyde and other VOC effectively
- 👍 Reduce Odor, Bacteria, Virus, Mold, Fumes, Smoke, and other airborne impurities
- 👍 The technology can destroy H5N1 viruses, Listeria monocytogenes, E. coli 0157 and Surface bacteria which approved by lab report

Product & Service

AC Series

- ⊕ For office, restroom and public areas
- ⊕ Destroys odor, bacteria, viruses, mold, fumes & airborne impurities effectively
- ⊕ No consumable chemicals, filters or scents used
- ◇ Coverage (toilet cubicle) : 1-6 units
(Depends on models)
- ◇ Dimension: 41.2 (L) x 13.3 (W) x 9.3 (H) cm
- ◇ Net Weight: 960 g

PR Series

- ⊕ For home and office
- ⊕ Destroys odor, bacteria, viruses, mold, fumes & airborne impurities effectively
- ⊕ No consumable chemicals, filters or scents used
- ◇ Coverage (sq. ft.) : 500-1000 sq. ft.
(Depends on models)
- ◇ Dimension: 27.0 (L) x 23.0 (W) x 9.5 (H) cm
- ◇ Net Weight: 1,570 g

IceZone Series

- ⊕ Inhibits the growth of mold and bacteria in ice machines
- ⊕ Reduce cleaning time & extend the life of ice machine
- ⊕ Having UL, NSF/ANSI 169 & HACCP standards
- ◇ Capacity (lbs/daily) : 1200-1600 lbs or above
(Depends on models)
- ◇ Dimension: 30.5 (L) x 10.8 (W) x 5.6 (H) cm
- ◇ Net Weight: 590 g

Product & Service

Sanitation, Deodorization & Formaldehyde Reduction Service

- According to the conditions such as space & air quality, using Nano Catalyst and different kinds of air purifiers to provide 1 time treatment
- Nano Catalyst can penetrate to those small cracks of the material surface, which formaldehyde & VOC will be decomposed
- Only flow with air is required, no need to expose to light, which can decompose the harmful substances

National Invention Patent & non-toxic certification

Ultra Pure Water

- ◆ LBS Refreshment Services Water Dispensers which have 3 Core of Water Filtration and Purification Technologies, include:

- ◆ Having a number of International Certification, include:

Water Dispenser

Waterlogic Firewall Cube

- ☑ With cold, ambient, hot & extra hot water
- ☑ Cold 5-16°C; Hot 87°C (Extra hot up to 95 °C)
- ☑ Cold tank 1.4 L; Hot tank 1.3 L
- ◆ Dimension: 29.6 (W) x 37.5 (H) x 42.5 (D) cm
- ◆ Dispense Area Height: 16.2 cm
- ◆ Weight: 18 kg

Waterlogic 2 Firewall

- ☑ With cold & hot water
- ☑ Cold 5-8°C; Hot 87°C
- ☑ Cold tank 2 L (Freestanding is 4 L); Hot tank 1.5 L
- ◆ Dimension: 34.5 (W) x 48.0 (H) x 36.7 (D) cm
(Freestanding is 34.5 (W) x 103 (H) x 36.7 (D) cm)
- ◆ Dispense Area Height: 21.0 cm
(Freestanding is 21.5 cm)
- ◆ Weight: 25-26 kg (Freestanding is 27-29 kg)

Waterlogic 3 Firewall

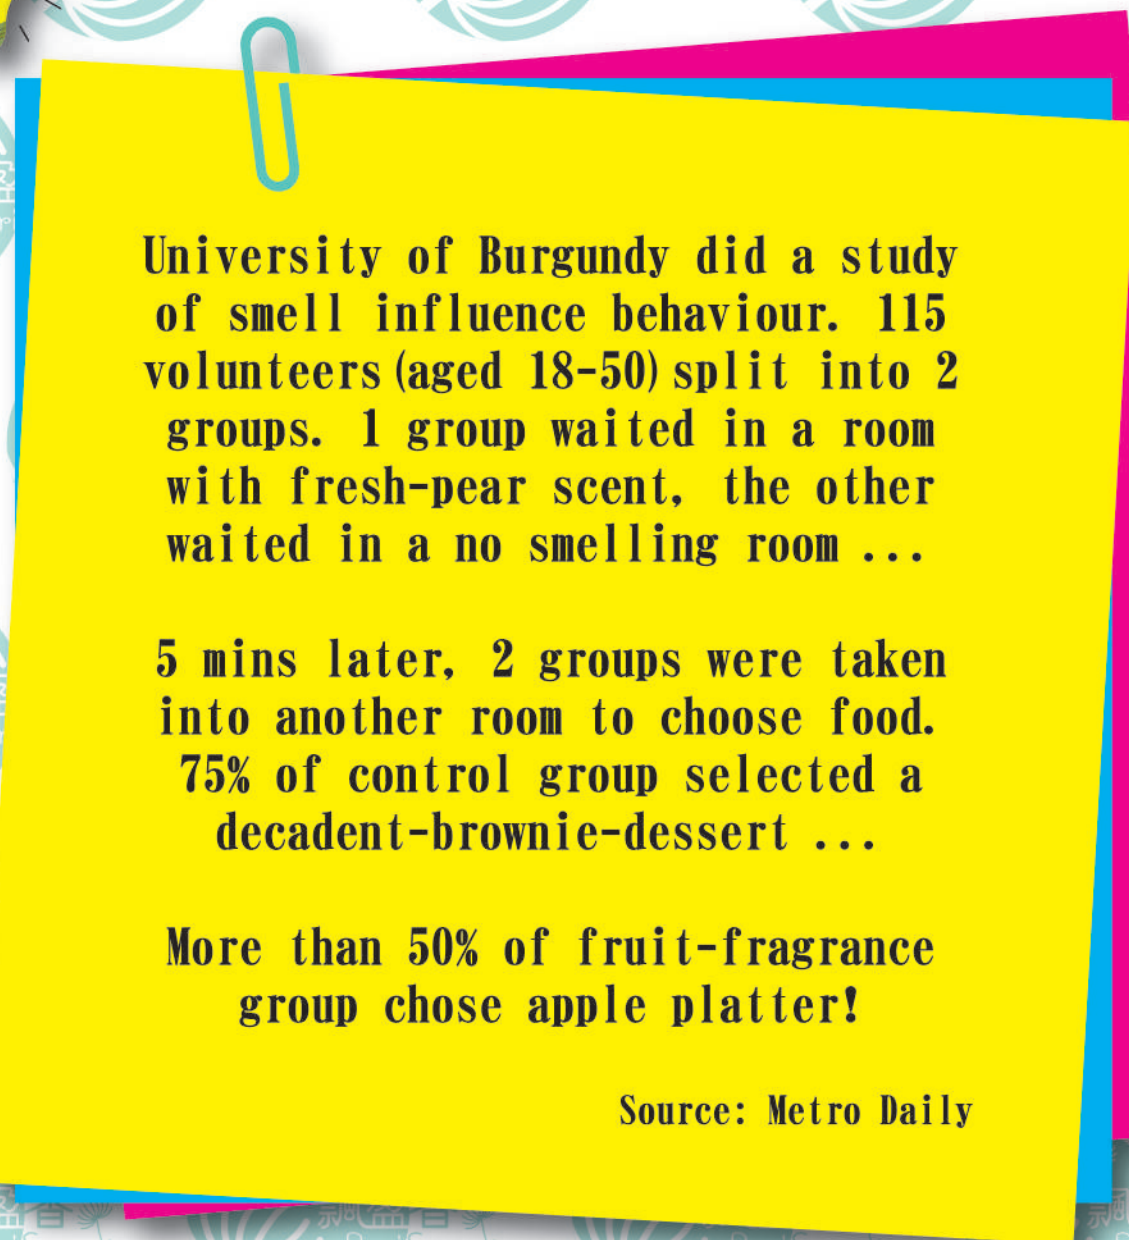

- ☑ With cold, ambient, hot & extra hot water
- ☑ Cold 5-15°C; Hot 87°C (Extra hot up to 95 °C)
- ☑ Cold tank 4 L; Hot tank 2 L
- ◆ Dimension: 38.5 (W) x 114 (H) x 36.5 (D) cm
- ◆ Dispense Area Height: 22.0 cm
- ◆ Weight: 34 kg

PuriScent

University of Burgundy did a study of smell influence behaviour. 115 volunteers (aged 18-50) split into 2 groups. 1 group waited in a room with fresh-pear scent, the other waited in a no smelling room ...

5 mins later, 2 groups were taken into another room to choose food. 75% of control group selected a decadent-brownie-dessert ...

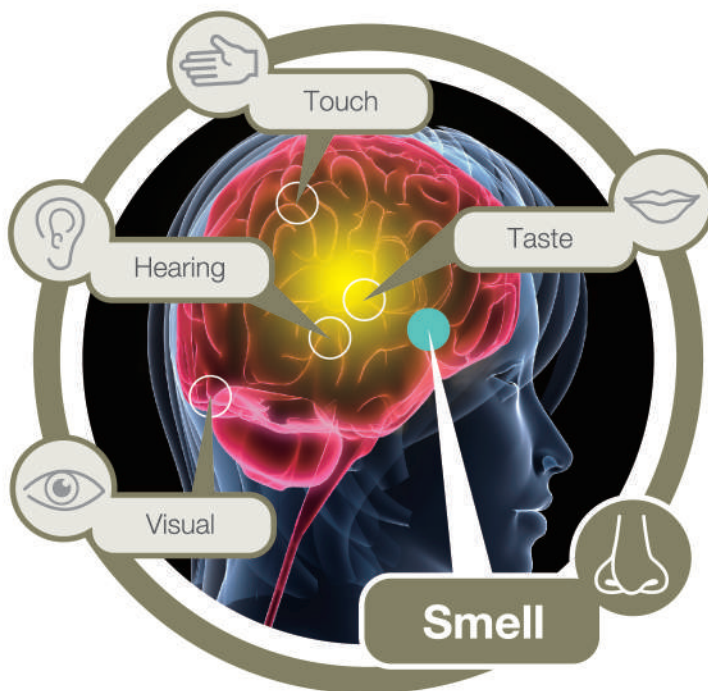

More than 50% of fruit-fragrance group chose apple platter!

Source: Metro Daily

Scent Marketing

◆ Human response to odors:

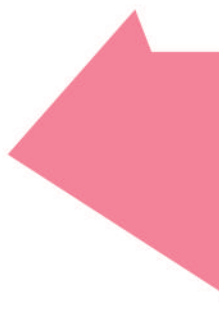

- 👍 Recognize approximately 10,000 different odors
- 👍 75% of emotions are generated by smell
- 👍 Visual memory is 50% accurate after 3 months, while smell is 65% accurate after a year
- 👍 More creative in problem solving in scent environment

Puriscent

◆ Scent Marketing is better than others:

A study showed shoppers spent about 50% more time in a clothing store scented, and spending is also more than twice

Thomas Pink, a London-based shirt seller, delivered a personalized scent in stores, which causes brand association and enhances brand value

McDonald's in Beijing set up scent diffusion systems at bus shelters, stimulated people who hadn't eaten would go to McDonald's for breakfast

Diffusion System

ScentWave

- 👍 Use built-in fan to diffuse scent to covered area
- 👍 Cylindrically-designed cartridges, easy and convenient to replace
- 👍 Clean, safe and simple to use
- ◆ Colour: White and Black for selection
- ◆ Dimension: 19.0 (W) x 19.0 (H) x 20.0 (D) cm
- ◆ Weight: 1,828 g

ScentDirect

- 👍 Silent, vibration-free operation
- 👍 Cylindrical design preferred by retailers
- 👍 Advanced atomization technology generates ideal particle size
- ◆ Colour: White and Black for selection
- ◆ Dimension: 15.0 (W) x 27.0 (H) x 15.0 (D) cm
- ◆ Weight: 1,193 g

ScentStream

- 👍 Advanced atomization technology generates ideal particle size, programmable timing and intensity setting
- 👍 5 litres container
- 👍 Installed at the central air-condition duct, diffusing the scent to every corner of the covered area
- ◆ Dimension: 27.5 (W) x 13.0 (H) x 14.5 (D) cm (black)
16.0 (W) x 19.0 (H) x 20.0 (D) cm (white)
- ◆ Weight: 4,825 g

* Product specifications and appearance are subject to change without prior notice

Diffusion System

- ◆ Over 300 fragrance families together with our scent diffusion system which provides an unrivaled feeling:

 Flora	Having both classic and modern feelings
 Fruit	Incorporates a variety of fruits including traditional orchard fruits, tropical fruits, red fruits and berries
 Marine	Conveying escapism and freshness feelings
 Oriental	Increasing needs from global luxury hospitality market, which scent act as personalized image
 Aromatic	Incorporates a variety of garden herbs, which form a relaxed environment

In restaurant, airborne grease is formed because of cooking. Not only environment becomes sticky, but also causes grease fire ...

Recently, grease fire accident was happened in a Tuen Mun restaurant that caused staff and customers ran and escaped from the disaster ...

So, restaurant owners should pay attention to cooker hood cleaning in order to save lives!

Source: on.cc

Cooker Hood Cleaning

Cooker Hood Cleaning

◆ Regular cooker hood cleaning is a **MUST**, because:

- 🔥 Can avoid business loss and casualties because of grease fire
- 🔥 Prevent food pollution which is satisfied with government's health & safety requirements
- 🔥 Reduce air pollution
- 🔥 Maintain a good working condition
- 🔥 Reduce odor in eating area

◆ Our Strength:

- 👍 Kitchen cleaning procedure & technology are complied with ISO9001:2008 international standard
- 👍 Professional chemical "GreaseBeast" (patent no. 7998917), clean inside & outside of cooker hood system (exclude pipes which connect to cooker hood system), filters and visible wall between cooker hood and stove
- 👍 Chemical is environmental safety & low corrosivity which can be dumped the outfall

Before

After

* Treatment may change depending on real situation

**Drains in kitchen are often
blocked because of
grease or food residue ...**

**Many of people use drain cleaner
to solve the blockage ...**

**A cafe owner in HK,
using 22 bottles of drain cleaner
at the same time. As a result,
the drain was broken, and caused
pedestrians got injuries ...**

Source: Oriental Daily

Grease Remedial

Grease Remedial

◆ We install and maintain the Grease Remedial System to ensure it works, including:

- 👍 Injecting the bacteria to the pipes & traps at regular intervals
- 👍 Provide installation, checking and maintenance, and also ensure the bacteria work effectively
- 👍 Environmental friendly with no damage to pipes

◆ Our Strength:

- 👍 Our bacteria secrete both extra-cellular and membrane bound enzymes actively that can continually working. It is difficult to flush away, so it can digest the grease much more than enzymes product
- 👍 Greatly reduce the drain pipe & grease trap blockage, preventing from any related expenses, and also save the cost of maintenance
- 👍 Reduce the plumbing frequency and cost (plumbing frequency may be adjusted depending on the type of the restaurant and waste level in the grease trap)
- 👍 Remove odor and protect staff' s health

* Treatment may change depending on real situation

**Grease trap is a device
used for removing oil and grease
from wastewaters. It performs the
function very well, provided they
are constructed and maintained
properly ...**

**Inspect the grease trap
at least every 3 days and
clean it promptly if the contents
show the top 30% of liquid depth
occupied by greasy waste!**

Source: EPD

Grease Trap

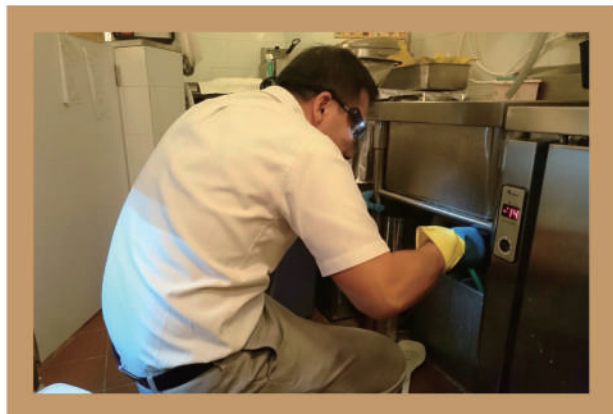

Grease Trap

◆ Our technician will handle grease trap carefully, including:

- 👍 Thorough tank cleaning includes pipes & pumps
- 👍 To inject bacteria to reduce grease accumulation
- 👍 Powerful sterilization & deodorising agent to control germ & odor. Also, can place Bromine Water Disinfection Tablet to get the best performance

◆ Our Strength:

- 👍 Control of viruses, bacteria, fungus and algae
- 👍 Eliminate those harmful microorganisms commonly found in water such as Staphylococcus aureus, E.coli, Salmonella typhimurium, Legionella pneumophila & Candidas albicans
- 👍 Suitable for cooling tower, decorative fountain, building, shopping mall and individual toilet bowl etc
- 👍 Certified EPA No. 75096, HKSTC No. 154228/ HC173502/ HC174454 etc

* Treatment may change depending on real situation

**Catering staff often slip and
get injury because of
the grease on the floor ...**

**Therefore, in addition to staff
should wear non-slip shoes, it
should also clean the grease
regularly ...**

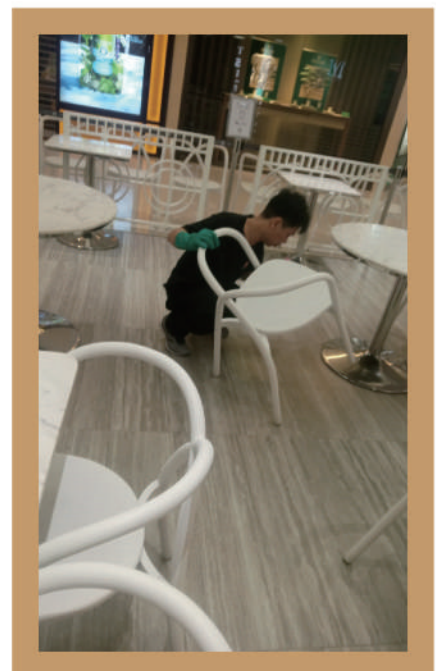

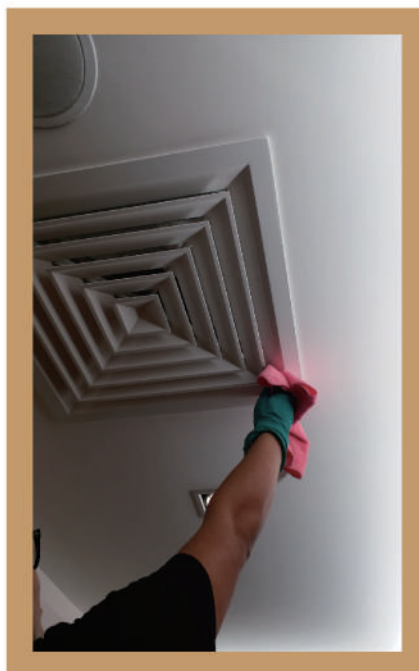

Source: HK OSHC

Dining Area Cleaning

- ◆ Apart from the quality of food, the environment and atmosphere of the restaurant are important factors in attracting diners, however:
 - 👍 Keep clean dining area is not easy, especially popular restaurants
 - 👍 Some restaurants that make and sell fried foods are more likely to cause grease everywhere which may cause slipping accidents

◆ Our Strength:

- 👍 Services include cleaning ceilings, vents, walls, mirror pillars, floors, chandeliers, decorations and signboards etc
- 👍 Dust removal and decontamination, even inconspicuous and fine areas can be cleaned up properly

* Treatment may change depending on real situation
